Not Human Subject Research

15-Apr-2020

Investigator: Tyler Muffly
Subject: COMIRB Protocol 20-0734 Initial Application
Review Date: 10-Apr-2020
Effective Date: 10-Apr-2020
Sponsor(s):
Title: The obstetrician and gynecologist specialist workforce: a survey of the geographical distribution and demand

Submission ID: NHSR001-1

SUBMISSION DESCRIPTION:

Initial submission

Your project submitted to COMIRB under protocol number 20-0734 has been reviewed and our determination is that it is NOT HUMAN SUBJECT RESEARCH as defined by our policies in accordance with OHRP and FDA regulations.

Therefore, you may proceed with the project strictly following the protocol as submitted and reviewed by COMIRB in submission NHSR001-1. No continuing review of the project will be required; however, you must resubmit the protocol to COMIRB for approval if any substantive changes are made to the protocol in question.

Any questions regarding the COMIRB action of this study should be referred to the COMIRB staff at 303-724-1055 or COMIRB@ucdenver.edu

Please carefully review the REVIEW DETAILS section below because it may include important information from the reviewer(s) and COMIRB staff.

COMIRB stamps the reviewed versions of documents in the top right hand corner. Stamped copies of documents are available for download through COMIRB's electronic submission website, eRA(InfoEd).
